This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

THE new Spanish Four per Cent. External Bonds being in amounts and multiples of 400 pesetas, and the exchange having been fixed at 25·20 pesetas per £, the Bonds in Sterling money are in amounts of £39 3s. 7d. and multiples thereof.

As it would obviously take some time to calculate the value of Bonds of these denominations without the aid of Tables, those contained in this book may be useful to Members of the Stock Exchange, and others, having numerous transactions in these securities.

Each calculation has been worked out to three decimal places of a penny (the nearest farthing being given), and checked in a manner which makes an error almost impossible.

By means of the small Table on Page 5, and the value of £79 7s. 2d. Stock, as given in the sixth column of the Tables, the value of other fractional parts of £952 6s. Stock can be found without much difficulty.

EQUIVALENT PRICE OF OLD SPANISH THREE PER CENT.

It is assumed the Bonds were converted at $44\frac{5}{8}$ per Cent.

RATE OF INTEREST YIELDED.

The new Bonds are considered to pay Four per Cent., notwithstanding the coupons for the half-years ending 1st January and 1st July are to be paid at the rate of about £2 16s. per Cent. per annum only.

J. H. JERARD.

July, 1882.
